DETAILED ACTION

1. This action is in response to applicant's remarks received on 09/01/05.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 18, 19, 22, 35 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by Carruth (5,140,778).

Carruth discloses (Fig. 1-9) the invention including:

- a. Claim 1; a body 38, a center leg 4 having a leg work piece-contacting surface, first and second tunnels (Fig. 3), a first leg 2 having a first leg work piece-contacting surface, non-slip surfaces (the bottom surface of the three legs), a second leg 2 having a second leg work piece-contacting surface (the right leg on Fig. 2 and 3) and a handle 45.
- b. Claims 18, 19 and 22; Carruth shows in addition to what is stated above regarding claim 1, a structure 138, a flat side surface (see Fig. 2 and 3, the side end of the leg 2), tunnels (see Fig. 2), means (40-42) for adjusting the width of the tunnel and co-planar work piece contacting surfaces (Fig. 2).
- c. Claim 35, wherein at least one of the first, second and center legs is removeably attached to the body (see Fig. 7).

Art Unit: 3724

d. Claim 36, wherein the width of the legs are different (see Fig. 7). Carruth's device is capable of passing a saw device through the tunnel.

4. Claims 1 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Tidey (751,121).

Tidey discloses (Fig. 1-4) the invention including a body *E*, a center leg *G* having a leg work piece-contacting surface, first and second tunnels (Fig. 1), a first leg *G* having a first leg work piece-contacting surface, non-slip surfaces (the bottom surface of the three legs), a second leg *G* having a second leg work piece-contacting surface (the right leg on Fig. 2 and 3) and a handle *K*.

Allowable Subject Matter

5. Claims 2, 4 and 6 are allowed.

6. Claim 23 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments, filed on 6/20/05 and 7/26/05, with respect to the rejection(s) of claim(s) 18 under a 102 rejection have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Essick (6,491,073 B1).

Art Unit: 3724
